

Get an Extreme Clean with Bio Steam's Fury

The **Fury** is a **tough and powerful cleaning solution with increased stability**. Using dry vapour steam and state-of-the-art equipment, the Fury will give your biggest and toughest cleaning challenges an extreme clean. Not just meeting - but exceeding - all HACCP and food regulatory requirements, the Fury's unique equipment is proven to give you the highest levels of sanitation and hygiene possible.

With a **low centre of gravity** and a **heavy duty trolley**, **stability and safety are assured** when used in **rough terrains** such as roads and uneven factory floors. **Factory equipment, walls and floors** will be quickly, easily and reliably cleaned and disinfected. The Fury is also ideal for **chewing gum removal** from roads, pavements, concrete and stone.

How does it work?

Specialised cleaning tools help dry vapour steam molecules penetrate even the smallest pores, **killing bacteria and forcing dirt and debris to the surface** – without any chemicals! When an extra cleaning boost is needed, a small amount of food-safe detergent is injected to **suspend the dirt**. Dirt and debris are vacuumed away, leaving **slip-free, instantly dry, sanitised surfaces**.

What are the benefits?

- ✓ **Exceed** HACCP and all food hygiene requirements
- ✓ **Reduce** cleaning time with instant-dry surfaces
- ✓ **Extend** the life of your appliances and equipment
- ✓ **Eliminate** detergent build-up for slip-free floors
- ✓ **Save** money on water and chemicals
- ✓ **Increase** the efficiency of your staff
- ✓ **Be** environmentally friendly

Who does the Fury suit?

The Fury is ideal for **factories, industrial outlets and contractors** that need a **tough and powerful cleaning solution with increased stability**.

How can I buy a Fury?

- 1) **buy now**
- 2) **rent now** – for a day, a week, a month
- 3) **rent now, buy in 12 months** – and get a 75% rebate on the rental cost.

Technical specifications	
Steam Pressure	9 bar
Electricity Supply/Frequency	230V 50/60 Hz
Power (watts)/Current (amps)	2200 watts + 1200 watts wet/dry vacuum
Operating time	Continuous
Steam Temperature	180°C
Heating Time	9 minutes
Water tank	5L
Chemical tank	2 x 5L
Stainless steel boiler	3L
Housing cover	Stainless steel
Components	2/3 nylon, 1/3 fibreglass
Tubing	Teflon
Steam control	Variable
Electro valve	For constant pressure
Electric cables	Silicon covered, flame proof
Safety thermostat	Temperature limit 195°C
Electrical switches	Water spray proofed
Power cord length	4m
Weight	35kg
Dimensions (L x W x H)	930 x 500 x 990mm
